Costa del Sol, Benalmadena

Discover an exclusive new construction project featuring just 44 stylish homes, situated in one of Benalmádena's most privileged locations. Here, you live surrounded by nature, tranquility, and impressive views of the Mediterranean Sea. A place where daily life feels just a little more pleasant and where the view never gets old, even after the hundredth morning coffee on the terrace.

The residence offers elegant two- and three-bedroom apartments, designed with modern architecture that perfectly complements the natural topography of the surroundings. Large windows, spacious terraces, and meticulously landscaped gardens create a seamless transition between indoor and outdoor spaces. The result is a living environment that not only looks beautiful but also feels particularly pleasant.

During the development, great attention was paid to privacy, comfort, and quality of life. High-quality materials and a well-thought-out layout create bright and open living spaces where Mediterranean life takes center stage. Here, you enjoy peace and space without compromising on modern living comfort. The communal amenities also elevate the living concept to a higher level. Residents have access to beautiful swimming pools with a natural look, relaxation zones, outdoor spaces for yoga and fitness, coworking facilities, and cozy meeting places for young and old. The landscaped gardens and walking paths invite you to enjoy the outdoors all year round, which is fortunately not a difficult task on the Costa del Sol.

The location is one of this project's greatest assets. You live here in peace and quiet, yet close to everything that makes the Costa del Sol so attractive. The beaches, Puerto Marina, golf courses, shops, restaurants, and Málaga International Airport are easily accessible. As a result, this residence is not only attractive as a permanent home, but also as a second home or investment with strong value potential.

An exclusive living environment where nature, design, and quality of life come together, with the Mediterranean Sea as a daily backdrop. Here, you don't just live on the Costa del Sol; you experience it every day.
