Discover an exceptional contemporary villa in the prestigious Marbella Hill Club, just minutes from the Golden Mile. Designed by Villaroel and built by B. Solis, this three-story residence exudes modern elegance, craftsmanship, and architectural perfection.

Situated on a spacious plot with lush gardens by Espora, the villa offers complete privacy and panoramic views. Natural stone, glass, and clean geometric lines combine to create a timeless look that blends seamlessly with the Mediterranean surroundings.

The lower level is dedicated to relaxation and well-being. Here you will find a luxurious guest room, a laundry room, an entertainment area with a custom-designed bar, a full spa with a heated indoor pool, sauna, and a private gym. Furthermore, this level features a state-of-the-art technical room by Proinsermant—a testament to the villa's high quality and thoughtful design.

On the main level, the living, dining, and kitchen areas flow seamlessly into an open-plan layout. Large sliding windows open onto a generous terrace overlooking the gardens and pool—the ideal spot for relaxing moments and al fresco dining. In addition to the fully equipped main kitchen, there is also a practical utility room. Two guest suites with en-suite bathrooms ensure optimal comfort for visitors. The interior, created by Pedro Peña, combines luxurious materials, refined textures, and carefully selected furnishings with unique artwork that adds character and ambiance to each space.

The upper floor is entirely dedicated to tranquility and privacy. Here you'll find the impressive master suite with a dressing room, luxurious bathroom, and direct access to a terrace with panoramic views. An additional guest suite and a serene office complete this floor, which, like the rest of the house, is accessible via an elevator.

This villa represents top-level living—a perfect symbiosis of architectural excellence, design precision, and natural beauty, situated in one of Marbella's most exclusive location.
