Costa del Sol, Mijas La Cala

This project was created with one goal: to allow you to experience the Costa del Sol in a way few experience, with a sense of tranquility, beauty, and harmony unique to this unique environment.

Natural light floods the spaces from morning to evening, giving each home a bright and open character. The penthouses rise above the surrounding area and offer breathtaking views of the Mediterranean Sea, framed by greenery and a soft horizon that exudes tranquility and space.

The complex comprises three contemporary buildings with a total of sixty-three apartments, situated on the front line of the golf course in Mijas Costa. The architecture combines modern lines with a strong connection to the natural environment. The ground floor apartments, as well as those on the first and second floors, offer approximately 115 m² of living space and a spacious 22 m² terrace. The penthouses offer approximately 130 m² of interior space and spacious terraces of varying sizes, perfect for fully enjoying the views and Mediterranean outdoor living.

The communal amenities are designed to enrich daily life. Each building includes underground parking, while residents can enjoy a fully equipped gym, a serene spa for relaxing moments, and a large central swimming pool surrounded by expansive green spaces. The golf course location creates a natural, tranquil setting with carefully landscaped gardens, trees, and flowers that create a sense of well-being.

Each apartment features two bedrooms and two bathrooms, with a thoughtful layout that prioritizes balance and comfort. The living space opens onto the terrace through large windows, seamlessly blending indoors and outdoors and optimally showcasing the sea views. High-quality materials and warm, neutral tones create an elegant and contemporary feel.

The bedrooms also exude tranquility and quality. They are spacious, equipped with built-in wardrobes, and finished in a modern, timeless style. The master bedroom has direct access to the terrace and is flooded with natural light. The bathrooms are finished with high-quality materials and soft lighting, creating a luxurious, spa-like atmosphere.

Together, these elements create a home that is not only practical and comfortable, but also refined and inspiring. A place where design, nature, and quality of life converge, and where every day feels like coming home.
