This exclusive residential complex, featuring a contemporary design, comprises two elegant, crescent-shaped architectural volumes that together form a harmonious and stylish whole. Each building has four levels – ground, first, second, and a penthouse floor – and houses a total of sixty-four exceptional two- and three-bedroom apartments.

The apartments are designed with comfort, quality, and energy efficiency in mind. They feature fully equipped kitchens with modern appliances and are equipped with aerothermal systems for hot water and climate control, air conditioning, heating, and high-performance double glazing. This not only ensures a pleasant indoor climate but also a sustainable and energy-efficient living experience.

Each apartment boasts spacious panoramic terraces with impressive views of both the mountains and the sea, seamlessly blending indoors and outdoors. The ground-floor apartments offer additional privacy with their own garden and private pool, while the penthouses feature an exclusive private solarium where you can enjoy the sun, views, and the Mediterranean climate in peace.

This project combines modern architecture, luxurious amenities, and a privileged location, offering a unique living experience for those seeking style, comfort, and exclusivity.
