Costa del Sol, Estepona

Discover this new residential project of 81 luxury two- and three-bedroom apartments and penthouses, nestled in a green oasis in the heart of the Golden Triangle, where Marbella, Estepona, and Benahavís converge.

The homes offer panoramic views of the green valley of the El Paraíso golf course and create a private resort feel, complete with first-class amenities such as a social club room, a fully equipped gym, hammam, and sauna. The communal outdoor areas are designed for relaxation and enjoyment, featuring a large swimming pool, beautifully landscaped gardens, and inviting lounge and recreation areas.

Each home is finished with high-quality materials and features spacious terraces that frame the stunning views. The ground-floor apartments have private gardens with swimming pools, while the penthouses boast generous solariums, perfect for enjoying the spectacular golf and natural landscapes.

The architectural design utilizes a staggered layout for optimal privacy and panoramic views. The central, organically shaped pools are integrated with sun terraces and green areas. For families, there is a dedicated children's play area next to the relaxation areas. Spacious green walkways and meeting places invite people to socialize, while covered and open communal areas are ideal for social activities. The landscaping combines native vegetation with open spaces and promotes sustainability and climate comfort.

The project features a main entrance with controlled access for both pedestrians and vehicles, direct access to the main road, and proximity to local amenities. A strategically located underground garage provides convenient and secure parking.

Experience luxury, tranquility, and a refined Mediterranean lifestyle in this exclusive development, where nature, comfort, and elegance converge.
