Costa del Sol, Fuengirola

Discover this exclusive residential project on the Costa del Sol, designed as a true “living garden” where well-being is shaped by water, greenery, and open spaces.

Located in Fuengirola, between Málaga and Marbella, this residence offers a unique balance between nature, a Mediterranean lifestyle, and excellent connectivity to everything that matters.

The project comprises 153 stylish homes with 2, 3, and 4 bedrooms, complemented by exclusive penthouses. Everything is designed to blur the boundaries between indoor and outdoor spaces. The generous terraces with organic forms act as a natural extension of the living space and create light, open zones that are fully connected to the surroundings.

Here, you live in a resort-like setting where every day feels like a vacation. The communal facilities are entirely focused on relaxation, health, and social interaction: outdoor pools, a heated indoor pool, a luxury spa, a gym, coworking spaces, and expansive landscaped gardens ensure an exceptional living experience.

The location completes the picture. Just a few minutes from the beach and with direct access to the A-7, you enjoy a smooth connection to Málaga, Marbella, and the international airport. Everything the Costa del Sol has to offer is within easy reach.

This project also sets a high standard in terms of sustainability. With an A energy label, aerothermal systems, solar panels, and advanced construction techniques, energy consumption is minimized and living comfort is maximized.

This is a new living concept where architecture, well-being, and experience come together. Every detail is designed to enhance light, space, and connection with the surroundings, resulting in a contemporary and fluid way of living.

A unique combination of design, nature, and resort comfort. A place where daily life is taken to a higher level.
