Costa del Sol, Fuengirola

In Fuengirola, a contemporary residential project is coming to life featuring 164 modern homes designed entirely around the Mediterranean lifestyle. Here, it is not just about living, but about comfortable living with light, space, and a relaxed rhythm that perfectly suits the Costa del Sol. The offering ranges from compact apartments to spacious family homes and penthouses, ensuring there is a suitable option for every stage of life.

The architecture is modern and bright, with a strong focus on natural light and a smart layout. Open living spaces create a pleasant flow between the kitchen, dining area, and living room, making the home feel larger than its four walls suggest. Large windows open the interior onto generous terraces, which naturally become part of daily life.

The kitchens are fully integrated into the living space and finished with contemporary materials and high-quality appliances. They are designed to be practical for everyday use, yet beautiful enough to simply stand in while the coffee is brewing and the sun shines in.

No compromises are made on quality of life outdoors either. The terraces are an extension of the home and make it possible to enjoy the mild climate all year round. The whole is enhanced by carefully landscaped gardens, water features, and walking paths that create a tranquil, almost park-like atmosphere within the residence.

The location in Fuengirola completes the picture. Here, you live close to the beach, shops, restaurants, medical facilities, and excellent connections to Málaga and the rest of the coast. It is a place where everything is close by, yet where you still feel like you are away from the hustle and bustle.

A modern living concept that brings together comfort, design, and location in one of the most established and beloved coastal towns on the Costa del Sol.
