Costa del Sol, Torremolinos

A contemporary residential project that has everything it takes to become one of the most sought-after addresses on the Costa del Sol. In a strategic location, close to charming La Carihuella and just a few minutes from Málaga, a development is coming to life here where location, architecture, and quality of life come together perfectly. And yes, that is just a five-minute walk from the beach, which immediately says it all about the kind of life you can expect here.

The project comprises 353 modern homes with one to four bedrooms and up to three bathrooms. The architecture is sleek and contemporary, with a strong focus on light, space, and a strong connection to the outdoors. Large terraces ensure that the Mediterranean climate is not a visitor, but a permanent resident.

The residence is conceived as a true living environment, almost a small city in itself. You will find indoor and outdoor swimming pools, a gym, a yoga club, coworking zones, a cinema, a gastroteca, and even a pet area. Everything is connected by spacious green areas and a central meeting area where life unfolds in a relaxed manner. The whole feels more like a resort than a classic residential project, yet one where you simply feel at home.

Underground, everything is practically and thoughtfully organized, featuring 750 parking spaces, storage units, and additional commercial spaces. Above ground, the focus is primarily on light, space, and views, with manicured landscapes and wide communal terraces that enhance the sense of openness.

The location completes the picture. You live here close to the sea, next to La Carihuella, and with a fast connection to the center of Málaga. Ideal for those wishing to live here permanently, seeking a second home, or focusing on rentals in a rapidly growing region.

A project where the sea, the light, and daily life flow seamlessly into one another, and where living feels just that little bit easier and more pleasant than elsewhere.
