Costa del Sol, Fuengirola Odniesienie: 29602  3 - 3  3 - 3  141m² - 155m²

Costa del Sol, Fuengirola

This exclusive residential project is located in El Higuerón, one of the most sought-after and fastest-developing residential areas on the Costa del Sol. Here, modern architecture, nature, and quality of life go hand in hand effortlessly. The result is a stylish residence where tranquility, comfort, and sustainability take center stage.

The small-scale residence consists of just forty homes. Thanks to an innovative construction method, every home is realized with an exceptionally high level of finish. This ensures not only a high-quality finish but also an energy-efficient home that is ready for the future.

In the design, great attention was paid to natural light, living comfort, and a pleasant indoor climate. Large windows allow daylight to stream in abundantly, while high-quality insulation and smart technologies ensure a comfortable temperature and a quiet living environment all year round.

Sustainability plays an important role. The homes utilize solar energy, energy-efficient installations, and sustainable materials that limit energy consumption while simultaneously contributing to a lower ecological footprint. Good for the environment and for your energy bill. That always feels just that little bit nicer. Everything has been thought of outdoors as well. The communal areas are designed to fully enjoy the Mediterranean climate. Take a refreshing dip in the infinity pool, relax in the sauna, stroll through the landscaped gardens, or unwind completely during a yoga session in the wellness zone. There is even a private vegetable garden for those who like to literally reap the fruits of outdoor living.

This project is much more than a collection of homes. It is a place where design, sustainability, and quality of life come together. A home where you live comfortably today and are fully prepared for the future tomorrow.
