Costa Blanca, Alfaz del Pi

Welcome to our new construction project in Alfaz del Pi, where we realize modern single-family homes with an exclusive design. In a real estate market that is becoming increasingly inaccessible, we offer an economically viable option, without compromising on style and comfort.

Our villas are designed with an eye to optimizing functionality, costs and design. With three different models, each on one level, they offer 2 to 3 bedrooms, 2 bathrooms, an open kitchen with a spacious living room, fitted wardrobes, a terrace, a private garden with swimming pool and parking.

We understand that individuality is important, which is why we offer various options for finishing, air conditioning, self-sufficiency with photovoltaic panels and home control with home automation. This gives you the opportunity to configure your dream home, adapted to your needs, with a fixed price.

Alfaz del Pi is located on the Mediterranean coast, bordering Altea, La Nucia and Benidorm. With the city center just 3km inland and 4km of beautiful coastline, including Albir Beach, this location offers the perfect combination of tranquility and accessibility.

Discover the comfort, style and affordability of our modern villas in the heart of the Costa Blanca.

Villas for sale. Choose from different models.

2 - 3 bedrooms, 2 bathrooms, equipped open kitchen, various options, terrace and garden.
