## Costa Blanca, Finestrat

Welcome to a beautiful new construction project in Finestrat, where modern architecture and the rustic charm of the Mediterranean aesthetic come together. Here you will discover breathtaking 4 bedroom, 4 bathroom villas, each designed to perfection for comfortable and luxurious living.

Upon arrival, you are greeted by a side garden, tastefully decorated with cacti and white gravel, that connects level 1 to the main floor (level O). Here the use of natural grass is presented as an additional feature, carefully integrated into the landscape design.

Each level of these villas has a unique appearance, enhanced by special materials. Level O is characterized by natural limestone that supports the entire structure. Level 1 is covered in a single-layer finish and wooden shutters, providing protection and privacy for the most intimate part of the house. On level 2, where the master bedroom is located, a spacious terrace opens up and the textured monolayer in a warm shade is used for the finishing touches.

The villas enjoy a beautiful terrace with panoramic views of Benidorm, a private garden with an enticing swimming pool, and convenient parking. The combination of modern elegance and the surrounding nature makes these homes an ideal choice for those looking for the best of both worlds.

Finestrat is ideally located in the Marina Baixa region, on the beautiful Costa Blanca. The village overlooks the Mediterranean Sea and offers picturesque views of the mountains and the coast. Benidorm, with all its amenities, is just a five-minute drive away, and the city of Alicante and its international airport are approximately 40 kilometers away.

These villas perfectly combine comfort and style in a lush Mediterranean setting. Don't miss this unique opportunity to live in a beautiful piece of paradise on the Spanish coast.
