Costa del Sol, Mijas Costa

Respecting the traditional shape of a house, the primitive pentagon, our design team evolved these geometric lines to create harmony with the existing vegetation. This has created a continuous dialogue with nature, its energy and its movement.

This is how the central axis, which forms the traditional sloping roof slope of the house, is broken and one of the edges moves, dancing to the rhythm of the wind breeze. This creates distinction between each villa and results in a unique skyline on the Costa del Sol.

With the philosophy "Less is More" in mind, the design exudes the search for pure, elegant and soft lines.

Materials such as natural wood have been used in selected areas of the villa's cladding, creating a continuous dialogue with the natural landscape surrounding it, making the project undeniably unique, elegant and pure.

The staircase, designed and built as a work of art in itself, elevates the living space into an exclusive art gallery.

The 3 and 4 bedroom villas are designed to optimize the spaces and the relationships between the different areas. The result is a living environment that blends seamlessly with the surrounding natural beauty, offering you a unique and unforgettable experience on the Costa del Sol.

Modern villas for sale. Spacious villas with high-quality materials.

3 - 4 bedrooms, 3 bathrooms, 2 floors, fully equipped open kitchen, air conditioning, spacious terrace and private pool.
