Costa Blanca, Arenales Del Sol

Welcome to this new development project with key ready apartments, located in front of the famous beach of Los Arenales del Sol.

They are located about 200 meters from the fine, white sandy beach of Los Arenales del Sol, one of the most appreciated on the Alicante coast, both for the quality of its water and the richness of its seabed, and for its wide and natural dunes. Arenales del Sol beach has everything you could wish for; crystal clear waters ideal for snorkeling, beach bars to enjoy music and a cocktail at sunset, a variety of water sports and a spacious beach for undisturbed sunbathing.

The beach has received the blue flag and its unspoilt nature gives it a high ecological value. There are also large parking spaces, maritime surveillance, a tourist information point, beach chair and parasol service, and accessibility for people with reduced mobility.

There are plenty of amenities nearby. In Los Arenales del Sol you will find a variety of restaurants, shops, kiosks, ice cream parlors, leisure businesses and a street market in summer (Tuesday and Friday afternoons) where farmers come to offer their fresh local produce, and there are stalls selling clothes and shoes, among others.

These beautifully located 2-bedroom, 2-bathroom key-ready apartments feature a spacious terrace with fantastic views of the open sea, perfect for enjoying a sunset aperitif while taking in the breathtaking surroundings. The open kitchen is adjacent to the living/dining room, creating a beautiful open space that opens onto the terrace. The apartments have air conditioning, electric shutters and a central vacuum system. They come with 2 parking spaces, a storage room and access to the communal swimming pool. There is also a playground for children and a park.

These apartments are located just a few hundred meters from one of the best beaches on the Costa Blanca, with crystal clear waters and extensive sandy beaches and dunes. Don't miss this opportunity to own a property in such a privileged location! These apartments are also ideal as an investment due to the great rental potential.
