Costa del Sol, Torremolinos

Welcome to our project in Torremolinos, designed to set a new standard for residential developments on the coast of Málaga. Thanks to the innovative architecture and extensive communal areas, this project will become the reference for contemporary living.

This residential complex overlooks the Mediterranean Sea and offers unparalleled views of the entire city and coast. The ideal place to bring state-of-the-art, sustainable architecture to life, which integrates seamlessly into the environment without compromising a recognizable and attractive identity.

Large terraces and windows characterize the building's design, perfect for enjoying the homes and creating a unique, modern look.

Torremolinos is much more than just a holiday destination. Thanks to its proximity to Málaga and access to the A-7 motorway, it has all the services of the capital within easy reach, including the international airport.

The project's extraordinary location and carefully landscaped greenery are complemented by extensive communal areas, including a large swimming pool with sun terrace.

Torremolinos is synonymous worldwide with the Mediterranean Sea. The beach, culinary options and recreational opportunities have made this former fishing village one of the most coveted destinations for year-round living or for a dream vacation.

This project is located in a naturally excellent position, with a unique panoramic view over the city and the beautiful city beach. From the terraces the landscape seems endless, with the city skyline and the Mediterranean Sea stretching out below you. Experience the innovative luxury of Torremolinos!

Beautiful apartments for sale.

3 bedrooms, 2 bathrooms, fully equipped open kitchen, air conditioning, terrace, fitness, sauna, playground, communal garden with swimming pools.
