Discover an exclusive new-build project with 30 impressive three- and four-room apartments, designed to emphasize the already enormous spaciousness of the living areas. These homes have been carefully developed with comfort and well-being in mind.

Upon entering the impressive and welcoming lobby of more than 700 m², the spirit of the project is immediately reflected. The lobby houses the reception and a spacious, fully equipped coworking space. This space offers an alternative outside the spacious apartments for receiving visitors, working or studying.

Residents have access to premium facilities such as a gastrobar, gym, indoor heated pool and two outdoor pools, one of which is exclusively for swimming. With three facades and significant floor-to-ceiling windows, there is an abundance of natural light in each home.

The spacious living room, two floors high in the case of the duplex penthouses, forms the heart of the house. Together with the terraces and gardens, the living room captures the natural environment and brings it indoors. The emphasis is on the generous terraces and gardens that ensure a seamless transition between indoor and outdoor spaces. The terraces range from 40 m² to 260 m² and private gardens up to 155 m².

Experience the ultimate living comfort in an environment that combines luxury and functionality. These new-build apartments offer an unparalleled living experience in the heart of the city. Don't miss this unique opportunity to be part of this exclusive project!
