## Costa del Sol, Mijas

Discover our innovative project in Mijas, consisting of 46 apartments with a modern and practical exterior design, ideal for enjoying the magnificent terraces and their panoramic views. The layered architecture offers natural light and privacy in all homes and also creates a very spacious outdoor space. The apartments are built with sustainable materials and have an energy certificate A, including advanced home automation, smart locks and aerothermal systems.

Living in an environment where you can combine urban life with recreational activities such as golf, provides a balance between the hustle and bustle of the city and moments of relaxation and recreation. This contributes to a higher quality of life. With less than 20 minutes from the airport, you have quick access to both domestic and international flights. Furthermore, the proximity to urban centers and attractions such as parks, green areas and sports facilities makes for a valuable real estate investment.

The homes have spacious rooms, American kitchens and beautiful terraces and gardens. What really sets our complex apart are the impressive terraces that accompany each apartment. Designed in a layered form to guarantee maximum privacy and light between the homes. The perfect choice for those looking for an exceptional living experience.

With plenty of natural light and modern, efficient building materials, we create spaces where functionality and style come together harmoniously, resulting in a contemporary retreat full of light and elegance.

Beautiful apartments for sale. High quality apartments.

1 - 3 bedrooms, 1 - 2 bathrooms, fully equipped open kitchen, air conditioning, home automation, terrace, fitness and communal garden with swimming pool.
