Experience the best of three worlds in one of the most privileged locations in the region: between the tranquil nature of the mountains, the sparkling waters of Lake Istán and the magnificent panorama of the Mediterranean Sea. This unique residence combines breathtaking views with innovative architecture, high-quality finishes and ultimate comfort.

The project is being realised in two phases, spread over a gentle hillside that blends in perfectly with the natural surroundings. Phase 1 comprises 15 exclusive apartments, divided into three elegant buildings with only three floors – a harmonious whole of villa-style homes, garden apartments and luxurious penthouses.

On the ground floor you will find spacious villa apartments that extend over two levels, with an additional living space that can be fully adapted as a gym, cinema, wellness area or home office. The apartments on the first floor have spacious terraces, perfect for long evenings under the stars. The absolute gem are the penthouses on the top floor, with unparalleled views and a feeling of total freedom.

Each home has its own private pool and access to the spacious communal pools, so you can enjoy cooling, relaxation and the Andalusian outdoors at any time of the day. Large windows and open living spaces ensure a seamless connection between inside and outside, while the southern orientation makes the most of the natural light.

Be enchanted by the views of the iconic La Concha mountain, the deep blue of the lake and the endless coastline of Marbella. Here you live not only in luxury, but in harmony with nature, just a short distance from the vibrant life of the Costa del Sol.
