A unique collection of contemporary villas is emerging in the breathtaking landscape of Valle Romano, on the outskirts of Estepona. These exclusive homes have been carefully integrated into the rolling terrain, with the aim of making the most of the natural light, privacy and views. Each villa has been designed with attention to detail, seamlessly combining modern architecture with the beauty of the surroundings.

The villas have three or four bedrooms and offer a stylish and comfortable home in one of the most sought-after areas of the Costa del Sol. Some homes enjoy panoramic views of the Mediterranean Sea, while others are located directly on the golf course and are surrounded by peace and greenery. Thanks to generous terraces and spacious private gardens, outdoor living becomes an integral part of your daily living space. All villas are equipped with a private swimming pool, and some models also offer a basement that can be fully equipped to your own taste – from a fitness room to a home cinema or a wine cellar.

Each of the three home types is tailored to its plot and surroundings, with variations that play on orientation, sunlight and privacy. The interior exudes a sense of space and light, with open floor plans and large windows that seamlessly connect the inside and outside. The materials used are of the highest quality and sustainable, with smart architectural choices that minimize energy consumption without sacrificing comfort.

Inspired by passive architecture, these villas are designed with sustainable living in mind, with insulation, orientation and use of materials contributing to high energy efficiency and a pleasant indoor climate all year round.

The location is ideal: just five minutes from the charming old town of Estepona, close to pristine beaches, renowned golf courses and a vibrant lifestyle. Here you will find peace, luxury and the best of Spanish outdoor living – with the freedom to customize your home to your style and wishes.
