Welcome to an extraordinary project of detached villas with plots in a strategic location in the southeast of Spain. Here, the tranquility of the countryside is combined with the proximity of the sea, the city and major services, as well as excellent connections to the main airports.

Relaxation and tranquility begin from the moment you arrive home. The open spaces towards the living room, with large windows, emphasize the relationship between inside and outside, resulting in a harmonious environment that brings the freshness of the large garden to the interior. This is the perfect place to create pleasant outdoor spaces, including the possibility of building your own swimming pool and decorating your garden to your own taste.

A good neighborhood in a pleasant environment, with trees, gardens, cycle paths, and clear views...
The tranquility you need for your family.

Discover what the urbanization looks like and see the types of homes available. You can choose between homes with 2 to 4 bedrooms, distributed over one or two floors, and with a large fenced plot. Make this dream world yours.
